ANNUAL REPORT OF THE MEDICAL OFFICER OF
HEALTH FOR THE YEAR 1972.

To the Chairman and Members of the Evesham Rural District Council.

Mr. Chairman, Ladies and Gentlemen,

I have much pleasure in presenting the annual report of the state of the Public Health in the Rural District of Evesham for the year 1972 and the work carried out by your Health Department.

The statistics indicate a generally satisfactory state of health in the District during the year under review. There were only 4 infant deaths, all under 4 weeks of age. There were only 3 deaths in the age group 1 - 24 years, due to leukaemia, asthma and a motor vehicle accident.

The birth rate was substantially lower than in the previous year (14.8 live births per 1,000 population in 1972 as compared with 17.4 in 1971). The reason for this is a matter for speculation, but it follows a national trend.

Year	Standardised Birth Rate (per 1,000 population)		Registrar General's estimate of the resident mid year population of Evesham R.D.C.	Total number of Live Births Evesham R.D.C.

1964	20.4	18.4	17,980	326
1965	17.9	18.1	18,200	291
1966	17.7	17.7	18,460	291
1967	17.2	17.2	18,620	283

1971	17.4	16.0	20,100	309
1972	14.8	14.8	20,400	272

I acknowledge with thanks the assistance I have received from other officers of the Council, especially Mr. D.E. Berry and Miss E. Shervington, in preparing this report, and I should like to thank you, Mr. Chairman, and Members of the Council for their continued help and co-operation during the year.

I am, Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

D.E. THOMPSON.
